Development proposals which would affect the identified ridge and furrow resources in the neighbourhood area will be determined on the basis of any assessment of the scale of the harm or loss of the heritage assets concerned, their significance and the public benefits that would arise from the development concerned'</i>	This policy remains unchanged from the policy in the made Plan. However, the information and supporting text has been reviewed and updated. It now includes further details about the historic importance of ridge and furrow in the Parish. It also includes additional areas where there are clear traces of ridge and furrow. The made Plan included only

17	Policy GG17	Historic Landscape character Area	<p>Development proposals in the southwest section of Great Glen will be required to respect the historic features, as follows, that constitute the landscape area shown in figure 12. 19	Policy GG19	Important Views and Skylines	<p>Development proposals must consider, assess and address, with mitigation where appropriate, their impact on the important views listed below and illustrated in figure 14 (below) which help to define the rural setting and character of Great Glen. The important views are as follows:</p> <ol style="list-style-type: none"> 1. From the gateway at the highest point of the parish on Oaks Road (footpath C13) west over the village to the skyline; 2. From Oaks Road at the eastern edge of the village south-southwest over the valleys of Burton Brook and the River Sence; 3., 4. From the ridge and furrow fields southwest of St Cuthbert’s Church on footpath C26 to the church and village skyine; 5. From the Stretton Gal POS viewpoint (designed into landscaping works) and footpath C13 where it leaves the village on Coverside Road, northeast over rising open country to the skyline formed by the highest point of the parish; 6. Recommended that the wording used in the policy is modified so that it has the clarity required by the NPPF. In particular the submitted wording of ‘consider, assess and address’ incorporates three tests. This approach is unnecessarily complicated. In addition, the mitigation element is unclear. Also recommended the deletion of supporting text from the policy and its repositioning into the supporting text.</p>

26		Other Matters – Consequential matters	n/a	NOTE FROM THE EXAMINER: The review of the Plan has proposed modifications to some policies, has included new policies and has retained other policies. In this context I have examined the proposed modified policies and the proposed new policies. The Parish Council has concluded that

				<p>it is comfortable with the remainder of the policies. In any event they have not been subject to public consultation and scrutiny.</p> <p>In respect of Policy GG13 I have however recommended modifications to the policy wording so that it takes account of the mapping and information base which has been included within the Plan as part of the review. The recommended modifications will also ensure consistency with the proposed new policy GG17.</p> <p>Policy GG2 of the submitted Plan has proposed a new settlement boundary. I have concluded that it meets the basic conditions. Policy GG3 of the 'made' Plan comments about windfall sites. Its structure correctly assumes that the majority of such development will take place within the settlement boundary. However, part a) of the policy offers support to development outside the settlement boundary 'where the site is closely surrounded by buildings'.</p> <p>The potential for new development of this type is not included within Policy GG2 of the submitted NP review. In addition, potential development of this type does not feature</p>
